

## SIMULATING DRIVING DANGERS

Safe Drive Training offer driver education providers a range of resources to simulate dangerous and impaired driving. SDT is the exclusive distributors for these resources in Australia and New Zealand.

### SIMULATOR DRIVER TRAINING

SDT simulators are in use across Australia for driver education. They allow changes of vehicle, weather, roads, traffic, languages and emergency scenarios to be turned on. Our simulators are a turn-key solution with driver training videos, additional software and training resources. 4 models are available from AUD\$5,000 to \$18,000. Simulators can be used for novice driver training and also have applications in Physics related to Motion, Friction and Reaction Time.

*Now with VR goggle and Motion platform capabilities*

### DROWSY AND DISTRACTED DRIVING GOGGLES

These unique "blinking" goggles simulate the experience of drowsy driving (like micro sleeps) and also distracted driving while using a phone. Using the App, the instructor controls via Bluetooth the blinking rate of the goggles. These are a perfect accompaniment to our driving simulators and any other road safety program.

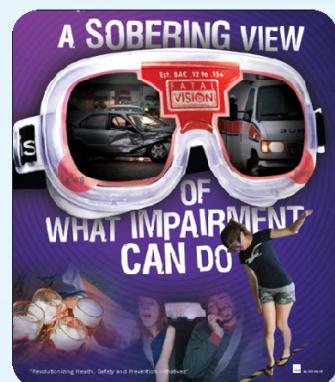

### MARIJUANA SIMULATION GOGGLE

This new drug education resource, allows hands-on awareness building about the distorted processing of visual information, loss of motor co-ordination and slowed decision making associated with Marijuana use. The training kit includes instructional materials and videos to guide program delivery in the classroom. This includes a special Hazard Perception Driving Video created to demonstrate the loss of important visual cues when drug impaired.

### ALCOHOL IMPAIRMENT GOGGLES

The Fatal Vision "Beer Goggles" come in a range of alcohol impairment levels and affect the wearer's coordination and balance to provide a realistic simulation of the dangers. These goggles are in use by Police, Health Departments, Universities, Schools and Colleges.

## Drowsy and Distracted Driving Goggles:

NEW These unique “blinking” goggles simulate the experience of drowsy driving (like micro sleeps) and also distracted driving. Using the App the instructor controls the blinking rate of the goggles. These are a perfect accompaniment to our driving simulators and any driver education program that targets fatigue or distracted driving.

[Click Here  
For More Info](#)

## Marijuana Simulation Experience:

This training kit includes a goggle and other educational games to simulate the impairment of Marijuana. The kit also includes a USB containing a range of drug education resources and an Australian-made interactive hazard perception video that is watched while wearing the Marijuana Simulation Goggle.

## FATAL VISION DRUNK DRIVING GOGGLES

[Click Here  
For More Info](#)

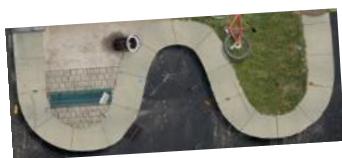

## Fatal Vision Alcohol Impairment Goggles:

These unique goggles demonstrate the impairment of alcohol consumption on a person's vision and co-ordination. The goggles can be used for a walk-the-line sobriety test or used with a driving simulator for a unique anti-drunk driving demonstration. The goggles are available in 5 different BAC levels which allow a person to experience different levels of alcohol impairment (eg. the effect of being at the legal limit compared to several times over the limit). We offer various kits and discounts for bulk orders.

## T.V.L. Tunnel Vision Lenses:

These lenses are applied over the Fatal Vision Goggles to demonstrate the Tunnel Vision effect that occurs with alcohol and drug consumption. Can also be used to promote novice drivers to turn their heads and scan further ahead while driving.

[Click Here  
For More Info](#)

## D.I.E.S. Danger in Every Step Floor mat:

This specially designed floor mat is used in conjunction with the Fatal Vision Goggles to provide an interactive demonstration of the dangers of alcohol and drug impairment (walking down stairs, tripping over objects etc)

## Alcohol Education PowerPoint:

This is a comprehensive PowerPoint presentation covering the impact of alcohol on human reactions, driving performance and drunk driving prevention strategies. The content is made in Australia with Australian content and terminology.

[Click Here  
For More Info](#)

## Phone Cell:

This practical zip-up PVC bag reminds the user to zip up phone distractions while driving. When the phone is in the bag, the message couldn't be clearer “Park your Phone Drive your Car.” Each bag includes a distracted driving message card.

This is a great give-away item to present to your course participants to reinforce the training provided. You can fill the bag with other give-away items.

[Click Here  
For More Info](#)

## Distract-A-Match Game:

This unique shape matching game helps demonstrate in a fun and engaging way the impact of distractions on our reaction time and judgment. This tool provides a clear and easy to understand lesson about the impact of distractions on a person's ability to drive safely. This game can also be used with the Fatal Vision Beer Goggles.

## **Concussion Training Kit:**

[Click Here For More Info](#)

The full training kit is a hands-on awareness program allowing participants to experience the simulated TBI (Traumatic Brain Injury) symptoms of dizziness, visual disconnect, disorientation, hesitation and confusion. The kit includes information for the trainer to run a session, games for participants, assessments and hand-out materials.

## **Redline Disposable Alcohol Testers:**

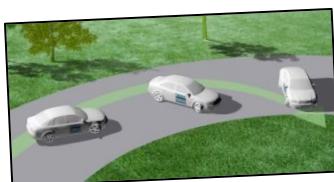

[Click Here For More Info](#)

REDLINE is a simple to use alcohol breathalyser, which detects the presence of alcohol in the body and gives an accurate indication of whether the blood alcohol content has exceeded a specific limit. Use this for testing students suspected of consuming alcohol or as a unique course give-away.

## **Defensive Driving PowerPoint:**

This comprehensive PowerPoint presentation (300+ slides) addresses the dangers of driving and risk management strategies for safe driving. The presentation contains numerous images and video clips to reinforce the principles being explained.  
(supplied on USB as PowerPoint file)

## **Skid Control Posters & PowerPoint:**

3 x A2 laminated colour posters for driving instructors to discuss understeer, oversteer and spins. The back of each poster has driver training advice on how each skid is caused and how it is recovered from. The buyer also receives a USB with the graphics file for each skid and a PowerPoint presentation on skid control techniques.

## **Driver Safety Posters**

These 3 x A1 laminated posters have been developed by SDT to provide informative driving tips to the audience in and around a driving simulator. The posters cover the topics of cabin drill (seating/steering), preventing carjacking and driving vision.

## **Defensive Driving Course Handbook:**

This 24 page full colour booklet on Defensive Driving summarizes the essential concepts of Safe and Defensive Driving. Use the booklet as a handout to your course participants or keep in your driver education resource library.

## **Digital Tyre Pressure Gauge:**

This gauge allows the user to check tyre pressures as part of their pre-start checks. The tyre gauge is also a key ring, so it can be kept with each vehicle. Battery supplied.

## **Simulators:**
