FATAL VISION DRUNK DRIVING GOGGLES

[Click Here For More Info](#)

Fatal Vision Alcohol Impairment Goggles:

These unique goggles demonstrate the impairment of alcohol consumption on a person's vision and co-ordination. The goggles can be used for a walk-the-line sobriety test or used with a driving simulator for a unique anti-drunk driving demonstration. The goggles are available in 5 different BAC levels which allow a person to experience different levels of alcohol impairment (eg. the effect of being at the legal limit compared to several times over the limit). We offer various kits and discounts for bulk orders.

T.V.L. Tunnel Vision Lenses:

These lenses are applied over the Fatal Vision Goggles to demonstrate the Tunnel Vision effect that occurs with alcohol and drug consumption. Can also be used to promote novice drivers to turn their heads and scan further ahead while driving.

[Click Here For More Info](#)

D.I.E.S. Danger in Every Step Floor mat:

This specially designed floor mat is used in conjunction with the Fatal Vision Goggles to provide an interactive demonstration of the dangers of alcohol and drug impairment (walking down stairs, tripping over objects etc)

Alcohol Education PowerPoint:

This is a comprehensive PowerPoint presentation covering the impact of alcohol on human reactions, driving performance and drunk driving prevention strategies. The content is made in Australia with Australian content and terminology.

[Click Here For More Info](#)

Redline Disposable Alcohol Testers:

REDLINE is a simple to use alcohol breathalyser, which detects the presence of alcohol in the body and gives an accurate indication of whether the blood alcohol content has exceeded a specific limit. Use this for testing students suspected of consuming alcohol or as a unique course give-away.

[Click Here For More Info](#)

A.I.M. Awareness in Motion Poster:

This poster promotes the danger of distracted driving. The lenticular lens technology puts into motion an all-too-common occurrence of a texting driver and the tragic consequences that can result. At first glance, the driver appears to face no immediate danger but with a shift of viewing angle you see a tragedy about to occur.

[Click Here For More Info](#)

Phone Cell:

This practical zip-up PVC bag reminds the user to zip up phone distractions while driving. When the phone is in the bag, the message couldn't be clearer "Park your Phone Drive your Car." Each bag includes a distracted driving message card.

This is a great give-away item to award to your course participants to reinforce the training provided.

[Click Here For More Info](#)

Distract-A-Match Game:

This unique shape matching game helps demonstrate in a fun and engaging way the impact of distractions on our reaction time and judgment. This tool provides a clear and easy to understand lesson about the impact of distractions on a person's ability to drive safely. This game can also be used with the Fatal Vision Beer Goggles.

[Click Here For More Info](#)

Marijuana Simulation Experience:

This new training kit includes a goggle and other educational games to simulate the impairment of Marijuana. The kit also includes a USB containing a range of drug education resources and an Australian-made interactive hazard perception video that is watched while wearing the Marijuana Simulation Goggle.

[Click Here For More Info](#)

Concussion Training Kit:

The full training kit is a hands-on awareness program allowing participants to experience the simulated TBI (Traumatic Brain Injury) symptoms of dizziness, visual disconnect, disorientation, hesitation and confusion. The kit includes information for the trainer to run a session, games for participants, assessments and hand-out materials.

Defensive Driving PowerPoint:

This comprehensive PowerPoint presentation (300+ slides) addresses the dangers of driving and risk management strategies for safe driving. The presentation contains numerous images and video clips to reinforce the principles being explained. (supplied on USB as PowerPoint file)

Skid Control Posters & PowerPoint:

3 x A2 laminated colour posters for driving instructors to discuss understeer, oversteer and spins. The back of each poster has driver training advice on how each skid is caused and how it is recovered from. The buyer also receives a USB with the graphics file for each skid and a PowerPoint presentation on skid control techniques.

Driver Safety Posters

These 2 x A1 laminated posters have been developed by SDT to provide informative driving tips to the audience in and around a driving simulator. The posters cover the topics of cabin drill (seating/steering) and driving vision.

Defensive Driving Course Handbook:

This 24 page full colour booklet on Defensive Driving summarizes the essential concepts of Safe and Defensive Driving. Use the booklet as a handout to your course participants or keep in your driver education resource library.

Digital Tyre Pressure Gauge:

This gauge allows the user to check tyre pressures as part of their pre-start checks. The tyre gauge is also a key ring, so it can be kept with each vehicle. Battery supplied.

Simulators:

We offer a range of driving simulators and simulator software.
